An Illustrated Country Year Celia Lewis boken PDF

Can you tell the difference between a frog and a toad? Did you know that 65 different bumblebee species have been found in Europe? Could you tell from a discarded Goldfinch's shell whether it hatched naturally or was eaten by a predator? Would you like to learn how to make oak apples into a necklace or turn nettles into a tasty soup? All this and more will be revealed in this new book from Celia Lewis, the author and artist behind our acclaimed Illustrated Guide to...series. Nature Uncovered is just the thing for anyone who likes to spend time in the countryside. Presented month by month, you can dip into it at any time of year - especially before a walk or after camping or day trips - and discover something new about the natural world around you. Each month opens with one of Celia's elegant linocuts and features several sections on the nature to be found that month, with species and plants illustrated throughout in beautiful watercolour and ink paintings. Find out what's about at any time of year, including what's flowering and which things you might come across on a walk that month, and learn how to turn discoveries from your country walks into something tasty to eat or to get creative with. Each month also features helpful tips on how to improve your nature detective skills and interesting snippets of country lore. Nature Uncovered is perfect for anyone who likes to spend time in the countryside. Presented month by month, dip into it at any time of year, especially before a walk or after camping or day trips, and

discover something new about the natural world around you.
